BOSS

Salteaua BOSS combină confortul unei saltele cu arcuri individuale de tip „pocket” cu căldura și personalitatea unei saltele cu strat de memory. Permite o aerisire mai eficientă și conferă o senzație deosebită de confort datorită stratului de poliuretan profilat. Husa detașabilă exterioară tratată antibacterian este dintr-un material foarte plăcut la atingere, dar ușor de întreținut. Arcurile individuale de tip Pocket Spring împachetate în buzunare individuale, conferă un confort individual sporit, prin transmiterea redusă a oscilațiilor mișcării către partener. Opțional, salteaua BOSS poate fi comandată în variantă vidată și rulată. După desfacerea vidului, este gata de utilizare peste 72 de ore.

The BOSS mattress includes the comfort of an individual Pocket springs mattress with the heat and the personality of a memory mattress. It is considered a medium-soft mattress, with a 5-year warranty, whose composition allows ventilation and a special feeling of comfort, including due to the profiled polyurethane layer. The antibacterial-treated outer removable cover is made of a material that is very pleasant to the touch, but easy to maintain. The Pocket springs, packed in individual pockets, do not allow the transmission of the movement to the other partner. Optionally, the BOSS mattress can be ordered in vacuum and rolled packaging. After opening the vacuum bag, the mattress is ready to use in 72 hours.

SOFT

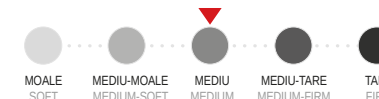

Salteaua SOFT este dotată cu un strat de spumă poliuretanică profilată care asigură susținerea suplimentară la nivelul trunchiului, șoldurilor, umerilor și susținere redusă pentru cap și picioare. Datorită suprafeței sale profilate pe fața de vară, oferă un efect de ventilare îmbunătățit, reducând căldura și umiditatea. Stratul de Memory Foam (burete cu efect de memorie) pe fața de iarnă asigură ergonomie și un bun confort termic. Are husă detașabilă din țesătură de tip Knitted (țesută), care favorizează eliminarea umidității și care poate fi spălată în mașina automată la temperatura de 30°C în regim de spălare delicat sau manual. Opțional, salteaua SOFT poate fi comandată în variantă vidată și rulată. După desfacerea vidului, este gata de utilizare peste 72 de ore.

The SOFT mattress features a profiled polyurethane foam layer that provides additional support for the trunk, hips, shoulders and reduced head and foot support. Thanks to its contoured surface on the summer side, it offers an improved ventilation effect, reducing heat and humidity. The Memory Foam layer on the winter side ensures good thermal insulation. It has a Knitted (woven type) detachable cover fabric that favors moisture removal and it can be washed in the washer at 30°C (delicate cycle). Optionally, the SOFT mattress can be ordered in vacuum and rolled packaging. After opening the vacuum bag, the mattress is ready to use in 72 hours.

RIGIDITATE / FIRMNESS

FLEX

Salteaua FLEX este dotată cu arcuri individuale de tip Pocket Spring împachetate în buzunare individuale, fapt care le permite să se miște independent. Astfel, dacă salteaua este folosită de 2 persoane concomitent, această tehnologie permite transmiterea mișcării doar pe zona ocupată de persoana respectivă. Porozitatea mare a stofei exterioare de tip Knitted asigură o circulație mult mai intensă a aerului, astfel facilitând eliminarea umidității.

The FLEX mattress is provided with individual Pocket Springs- these springs are individually wrapped in fabric pockets and are not directly attached to one another allowing them to move independently. Thus, if the mattress is used by two people at the same time, this technology allows the motion to be transmitted only on the area occupied by the person and adjust to the contours of the body. The high porosity of the outer Knitted fabric ensures a more intense airflow, thus facilitating the removal of moisture.

RIGIDITATE / FIRMNESS

COMPONENȚA / COMPOSITION:

- 1 Matlasat / Quilted**
Acoperit cu stofă de tip Knitted, cu proprietăți înalte de aerisire.
A Knitted type cover that owns high airing properties for extra comfort and breathability.

BIO

Salteaua BIO este dotată pe fața de iarnă cu un strat de confort sporit Memory Foam, care crează o amprentă individuală a corpului în timpul somnului, iar pe fața de vară este dotată cu un strat de pâslă Hard. Datorită balanței straturilor de „confort” și „confort sporit” pe care le are, ajută la relaxarea maximă și este orientată către susținerea corectă a coloanei vertebrale în timpul somnului. Porozitatea și permeabilitatea mare a stofei exterioare de tip Knitted favorizează o circulație mult mai intensă a aerului, astfel facilitând eliminarea umidității.

The BIO mattress is equipped with a Memory Foam comfort layer that creates an individual print - a shape that will perfectly hug your body during your sleep; also having a hard felt layer on its 'summer' side. The balance between the comfort grade layers helps maximize relaxation and is oriented on the correct support of the spine during sleep in perfect alignment. The high porosity and permeability of the outer Knitted fabric favors much more intense air circulation, thus facilitating the removal of moisture.

BAMBOO

Salteaua BAMBOO este o saltea fără arcuri, ceea ce înseamnă că este compusă din mai multe straturi de poliuretan (burete) special. Blocul principal este realizat dintr-un strat de spumă mai dură, care are o rezistență crescută, în combinație cu stratul profilat de poliuretan (design 3D), ceea ce crează o senzație unică de confort. Husa detașabilă exterioară este fabricată dintr-un material foarte plăcut la atingere, tratată antibacterian și ușor de întreținut, lavabilă la temperatura de 30°C în regim de spălare delicat sau manual. Opțional, salteaua BAMBOO poate fi comandată în variantă vidată și rulată. După desfacerea vidului, este gata de utilizare peste 72 de ore.

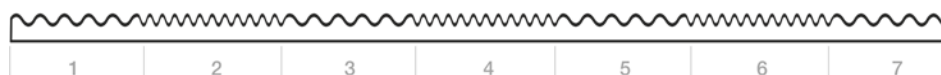

The BAMBOO mattress is a springless mattress, that means it is composed of several layers of special polyurethane (sponge). The main block is made of a firmer foam layer, which has increased strength, in combination with the profiled polyurethane layer (3D design), creating a unique comfort sensation. The removable outer cover is made of a very pleasant-to-touch material, treated with antibacterial properties, and is easy to maintain, washable at 30°C on a delicate or manual washing cycle. Optionally, the BAMBOO mattress can be ordered in vacuum-packed and rolled packaging. After unsealing the vacuum bag, it is ready for use in over 72 hours.

SOMNEO
VIS

Salteaua VIS este dotată cu un strat de confort sporit de pâslă Soft, care asigură poziția corectă a corpului și oferă un somn confortabil, sănătos și relaxant. Are două fețe, una pentru anotimpul rece, care menține bine căldura, și cealaltă pentru anotimpul cald, care oferă o circulație a aerului mai mare. Ventilarea sporită are loc prin intermediul unei benzi de aerisire plasată pe laterala saltelei. Suprafața exterioară a matlasatului, fiind acoperită cu stofă de tip Knitted, este elastică, iar datorită acestui aspect, își menține forma inițială mai bine în timp.

The VIS mattress features a comfortable layer due the soft felt that ensures the correct body position and provides a comfortable, healthy and relaxing sleep. It has two sides, one for the cold season, which maintains the warmth, and the other for the warm season, which offers a better airing. Enhanced ventilation takes place via a ventilation strip placed on the side of the mattress. The outer surface of the mattress, covered with Knitted fabric, is elastic and, due to this aspect, maintains its initial shape better over time.

DUO

Salteaua DUO – o îmbinare perfectă a proprietăților de confort sporit cu cele de accesibilitate financiară. Dotată cu sistem de Iarnă/Vară care permite alegerea nivelului de confort: fața de iarnă, datorită unui strat de poliuretan mai dens oferă o susținere mai bună, dar și un grad mai înalt de păstrare a căldurii, comparativ cu fața de vară, care este mai poroasă, dar mai rigidă. Salteaua respiră prin 2 benzi de aerisire dispuse lateral și este acoperită cu o husă din țesătură de tip Knitted, plăcută la atingere.

The Duo mattress – a perfect combination of increased comfort properties with those of financial accessibility. Equipped with Winter/Summer system that allows to choose the comfort level: the winter face, thanks to a thicker polyurethane layer offers a better support, but also a higher degree of heat retention, compared to the summer face, which is more porous, but stiffer. The mattress breathes through 2 side vents arranged sideways and is covered with a nice knitted fabric cover.

SOMNEO
LUX

Salteaua LUX îmbină cu succes proprietățile ergonomice cu cele de confort. Cele două fețe Iarnă/Vară - permit alegerea confortului preferat: fața de iarnă, dotată cu un strat de poliuretan de o densitate sporită oferă o susținere mai bună, dar și un grad mai înalt de păstrare a căldurii, comparativ cu fața de vară, care este mai poroasă, dar mai dură. Salteaua este ventilată prin butoane de aerisire și acoperită cu husă fabricată din țesătură de tip Jacquard de calitate înaltă, care o protejează de deteriorare și se curăță ușor.

The LUX mattress combines ergonomic and comfort features. The two 'Winter/Summer' sides allow to choose the comfort you prefer: the 'winter' side, with a high density polyurethane layer that provides better support and a higher heat storage compared to the 'summer' side that is more porous, but firmer. The mattress is ventilated through Air Vents, and has a cover made of high quality Jacquard fabric that protects it from damage, and it is easy to clean.

SOMNEO
ECO

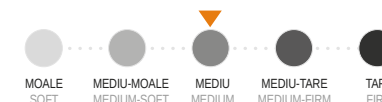

Salteaua ECO este o saltea ortopedică, care oferă un raport optimal preț/calitate, proiectată pentru un somn sănătos și pentru a oferi o senzație agreabilă de confort. Este dotată cu 2 fețe Vară/Iarnă care permit alegerea confortului preferat: fața de vară este proiectată pentru o circulație mai bună a aerului, iar fața de iarnă este mai moale și este adaptată pentru menținerea căldurii. Husa saltelei este fabricată din țesătură de tip Jacquart de calitate înaltă, care protejează salteaua de deteriorare și se curăță ușor.

The ECO mattress is an orthopedic mattress that offers an optimal price/quality ratio designed for a healthy sleep and to provide a pleasant feeling of comfort. The two 'Winter/Summer' sides allow to choose the preferred comfort: the summer face is designed for better air circulation, and the winter face is softer and is adapted to maintain the heat. The mattress cover is made of high-quality Jacquart fabric that protects the mattress from damage and is easy to clean.

SOMNEO
TOP

Salteaua TOP transformă rapid oricare saltea care și-a pierdut parțial din capacitatea de rezistență, sau orice canapea, într-un mediu de dormit mult mai confortabil. Topperul este conceput pentru a oferi un somn sănătos și confortabil prin asigurarea maximei susțineri și prin alinierea corectă a coloanei vertebrale. Cele două părți ale saltelei sunt cu duritate diferită, fapt care permite selectare gradului de confort în dependență de preferințe. Topperul este acoperit cu o țesătura de tip Knitted, care favorizează eliminarea umidității și a transpirației.

The TOP Mattress quickly turns any mattress or couch that has lost part of its toughness, in a more comfortable sleeping environment. The Topper is designed to provide a healthy and comfortable sleep by ensuring maximum support and proper alignment of the spine. The two sides of the mattress are of different hardness, which allows you to select comfort according to your preference. The Topper is covered with a Knitted fabric that favors the removal of moisture and sweating.

SOMNEO
TOP SEVEN

Salteaua TOP SEVEN este creată dintr-un strat de spumă poliuretanică profilată cu 7 zone de confort, care permite susținerea optimă pentru diferite părți ale corpului. Fiecare zonă de confort este special concepută pentru a se adapta la forma corpului și pentru a reduce punctele de presiune. Datorită structurii profilate, această saltea permite circulația aerului în interiorul ei, reducând astfel acumularea de căldură și umiditate. Este echipată cu o husă detașabilă din țesătură tricotată, care favorizează eliminarea umidității și poate fi spălată la o temperatură de 30°C într-un ciclu de spălare delicat.

The **TOP SEVEN mattress** is created from a layer of polyurethane profiled with 7 comfort zones, which allows for optimal support for different parts of the body. Each comfort zone is specially designed to adapt to the shape of the body and to reduce pressure points. Thanks to its profiled structure, this mattress allows air circulation inside it, thus reducing heat and moisture accumulation. It is equipped with a detachable cover made of Knitted fabric, which promotes moisture removal and can be machine washed at a temperature of 30°C on a delicate wash cycle.
